DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/24/06 has been entered.

Response to Amendment

2. The amendments to Claims 1, 6-7 in the submission dated 3/24/06 are acknowledged and accepted. In view of these amendments, the objections to the claims in Section 4 of the Office Action dated 10/24/05 are respectfully withdrawn.

Response to Arguments

3. The Applicant's arguments, see specifically Pages 14 of the response, filed 3/24/06, with respect to the rejection of Claim 1, as well as Claims 2, 7-8 which depend on Claim 1, have been fully considered and are persuasive. The rejections in Sections 6-7 of the Office Action dated 10/24/05 have been withdrawn.

Allowable Subject Matter

4. Claims 1-2, 4, 6-8 are allowed.

Election/Restrictions

5. Claim 1 is allowable. Claims 4 and 6, previously withdrawn from consideration as a result of a restriction requirement, include all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among Invention I, Species 1, 2, and 3, as set forth in the Office action mailed on 8/6/02, is hereby withdrawn**, and Claims 4 and 6 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim(s) including all the limitations of an allowable claim is presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott C. Harris (858-678-5070) on 5/18/06.

The application has been amended as follows:

Claim 1, line 10, after "the way said", insert --first--.

Claim 1, line 25, at the beginning of the line, "a first memory unit" should read --a second memory unit--.

Cancel Claims 9-33.

7. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the cited art of record for at least the reason that the cited art of record fails to teach or reasonably suggest an apparatus, as generally set forth in Claim 1, the apparatus including, in combination with the features recited in Claim 1, a first unit including a first memory unit, storing first calibration data for the first optical filter, which first calibration data relates to optical characteristics which are individual to the first optical filter in the optical device, and which affects the way the first optical filter is used; and a second unit including a second memory unit, storing second calibration data

for the second optical filter, which second calibration data is different than the first calibration data and relates to optical characteristics which are individual to the second optical filter in the optical device, and which affects the way the second optical filter is used. Claims 2, 4, 6-8 are dependent on Claim 1, and hence are allowable for at least the same reasons Claim 1 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
